

Name _____

Graph Data

Graph the data on the coordinate grid.

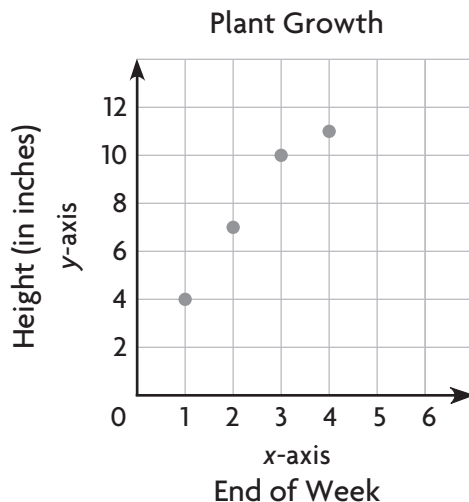

Plant Growth				
End of Week	1	2	3	4
Height (in inches)	4	7	10	11

- Choose a title for your graph and label it. You can use the data categories to name the x- and y-axis.
- Write the related pairs of data as ordered pairs.

(1 , 4), (2 , 7)

(3 , 10), (4 , 11)

- Plot the point for each ordered pair.

Graph the data on the coordinate grid. Label the points.

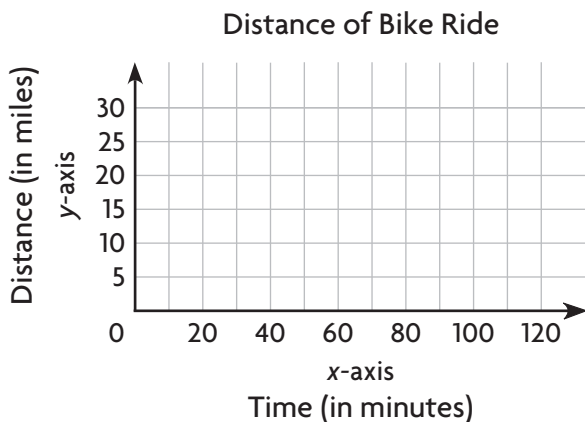

1.

Distance of Bike Ride				
Time (in minutes)	30	60	90	120
Distance (in miles)	9	16	21	27

Write the ordered pair for each point.

(_____ , _____), (_____ , _____)

(_____ , _____), (_____ , _____)

2.

Bianca's Writing Progress				
Time (in minutes)	15	30	45	60
Total Pages	1	3	9	11

Write the ordered pair for each point.

(_____ , _____), (_____ , _____)

(_____ , _____), (_____ , _____)
